The Request for Continued Examination, Information Disclosure Statement and Amendment filed 13 May 2005 have been entered.

Following are new grounds of rejection.

1. The following is a quotation of the second paragraph of 35 U.S.C.

112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12, 19-22 and 26-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are rejected for the reasons set forth in the Board OF Patent Appeals and Interferences Decision on Appeal mailed 10 September 2004. While applicants have amended the claims, it is the position of this office that this rejection is still appropriate. Rather than reciting "less than a typical amount of medicament" and instead reciting "less than the enteral administration amount of the medicament" the claim terminology is still considered indefinite. In reciting "the enteral administration amount" the claims still limit the amount of medicament or agent to a single, specific dosage of medicament or agent swallowed to achieve an effect. There is still no definition or guidance from the

specification regarding how to select a single dosage from within the range of enteral administration amounts that represents the amount to achieve the desired effect.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The WO 98/23165 reference shows a chewing gum comprised of caffeine that may be of interest. See page 4, lines 20-36. See also Facts And Comparisons' disclosure of Aspergum.

Claims 1-12, 19-22 and 26-29 are rejected.

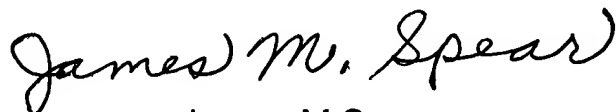

Claims 13-18 and 23-25 have been canceled.
